

Jakson Inns Phaltan

The Tiger Groove Corbett

Jakson Hospitality was built as a dream fulfilled by dreamers, who decided to create not just hotels, but institutions that affect all stakeholders, positively favoring the employee as the most important stakeholders and making Mother Earth an integral part of the profit process.

We built the first baby in Phaltan and nurtured it to become India's first LEED IGBC Platinum rated hotel in its class. We taught it to be karmically positive. We have hired 75% staff from the local area, of which 30% are females. Today we enlist the visually impaired and the physically challenged - Tomorrow we shall include the hearing impaired, the speech impaired and the transgenders into our family. We are all inclusive. The most important qualifications for selection is to have an infectious smile.

We have positively affected the local agricultural society, the fisherman and the local egg laying hens. Through linking hands with the local schools we have helped the female child and built toilets. And through it all we have consistently

*This is the dream on which
we plan to build this hotel family*

achieved a 5 star rating on Trip Advisor from our customers, a 90% employee satisfaction rating from our family and an 85% satisfaction rating from our vendors.

We have now adopted our second child called The Tiger Groove in Jim Corbett and expect to put the same values into our new child so that it grows up to influence all its stakeholders similarly. We look forward to

repositioning the Tiger Groove into a resort that creates memories for everyone that sleeps and eats in its arms.
